

Introducing... ONEsplash™

Our Next Epiphany

ONEsplash™ Classic

ONEsplash™ Round

Add a Touch of Class.

End splashes need more press.

Their utilitarian function is completely underrated. No matter how formidable – a wall needs shelter from the inevitable marinara sauce or water tossed its' way. Make that end splash beautiful? Now you can offer clients something truly amazing.

We bring you ONEsplash™

ONEsplash™ changes everything. It complements the elegant curves and flow of the backsplash profile, while protecting walls at the end of the line. ONEsplash™ takes customization to the "Nth" degree, allowing your clients an excellent alternative to the mundane. Beauty and brawn... simply incredible.

Turn laminate's affordability into upscale solutions – offer them ONEsplash™.
