## Classic/Self Edge Radius

This is a Classic/Self Edge Radius Corner. This type of completely round radius is only available on Classic and Self Edge tops.

Minimum size is $1 \mathbf{1 / 2 "}$
Requires 1" overhang

## Classic/Self Edge Full

End Radius (Arc Radius)

For an arc that is not completely round, measure from the furthest front edge of the arc, back
to where the arc ends.
This is the size of your arc radius
